

DARK CIRCLE PEEL

ACTIVE INGREDIENT

Mandalic , Phytic, Kojic, Lactic Acid and Vitamin C

Dark Circle Peel is a specialized peri-orbital rejuvenation peel formulated with a synergistic blend of Mandelic Acid, Phytic Acid, Kojic Acid, Lactic Acid, and Vitamin C. This advanced combination targets under-eye pigmentation, dullness, and uneven tone while gently exfoliating the delicate peri-orbital skin. The formulation works to brighten dark circles, improve skin texture, and enhance overall radiance with controlled, professional application. Ideal for pigmented dark circles and tired-looking under-eye areas.

INDICATION

- Under-Eye Pigmentation
- Dullness
- Fine Lines
- Tired Eyes
- Uneven Tone
- Puffiness
